On Christmas Eve a blockage was discovered in the septic system of the jail that affected 4 community cells, 14 persons each. 2 plumbing companies were called to help and were not successful in clearing the blockage. Repaired it enough that the water would reside. Jail staff contacted the Jail Commission, it was decided on New Year's Eve that solutions were not sufficient to jail standards, that resulted in Emergency Crisis mode. The maintenance dept has started digging to uncover where they believe the blockage may be. Judge Fauth commends Mr Floyd and Lt Silva by New Year's Eve meeting with Jail Standards those 4 community cells would have to be vacated which was 37 inmates, along with Sheriff Sowell and his resources, several surrounding counties were contacted and could not help. Montgomery County without hesitation said yes they could take the inmates and solved a very serious problem in a very short amount of time. A huge thank you to Judge Keown, Sheriff Doolittle and their Jail Chief. Also thank you to Francisco Herrera for spending 12 hours on a holiday.

Grimes County Emergency Management Services Coordinator - Dione Bumpous (JF)

19. Discuss and take action to update the Permits fee schedule adding Fire Code/NFPA consultant reviews and increasing certain fees by 2.2% based on the South Region CPI-U for the 12-month period ending November 2025.

Grimes County Engineer - Jon Steiber: It has been 6 months since the Permit Fee schedule has been updated. Trying to wrap everything that has to do with Development Permitting up all into one place so it is easier to find. Added the Septic Permit Review fees, combined Consultant Reviews and added the NFPA Emergency Services access review for civil sites, things like fire lanes. Follows the same model as the Drainage Impact Analysis consultant review fees. Development would be sent over to the Consultant who will give us the fee and the Developer pays that fee with no cost to the County. Mr Steiber will provide the contract at the next Commissioners Court meeting. We will change permit fees whether it be an increase or decrease, based on Consumer Price Index for Urban Consumers in the South region which is 13 states in the southern United States. This is the average change over time in prices paid by consumers. We set our permit fees as closely as possible to what it actually costs the County. This is just a cover cost plan. If fees are not regularly reviewed, may not be covering costs or possibly charging too much. Mr Steiber wants to implement an annual review. For now it is 2.2% adjustment in fees rounding up to the nearest dollar.

Motion by Chad Mallett to Approve to update the Permits fee schedule adding Fire Code/NFPA consultant reviews and increasing certain fees by 2.2% based on the South Region CPI-U for the 12 month period ending November 2025. Seconded by Phillip Cox.

IRS sets 2026 business standard mileage rate at 72.5 cents per mile, up 2.5 cents

IR-2025-128, Dec. 29, 2025

WASHINGTON — The Internal Revenue Service today announced that the optional standard mileage rate for business use of automobiles will increase by 2.5 cents in 2026, while the mileage rate for vehicles used for medical purposes will decrease by half a cent, reflecting updated cost data and annual inflation adjustments.

Optional standard mileage rates are used to calculate the deductible costs of operating vehicles for business, charitable, and medical purposes. Additionally, the optional standard mileage rate may be used to calculate the deductible costs of operating vehicles for moving purposes for certain active-duty members of the Armed Forces, and now, under the One, Big, Beautiful Bill, certain members of the intelligence community.

Beginning Jan. 1, 2026, the standard mileage rates for the use of a car, van, pickup or panel truck will be:

- 72.5 cents per mile [driven for business use](#), up 2.5 cents from 2025.
- 20.5 cents per mile driven for medical purposes, down a half cent from 2025.
- 20.5 cents per mile driven for moving purposes for certain active-duty members of the Armed Forces (and now certain members of the intelligence community), reduced by a half cent from last year.
- 14 cents per mile driven in service of charitable organizations, equal to the rate in 2025.

The rates apply to fully-electric and hybrid automobiles, as well as gasoline and diesel-powered vehicles.

While the mileage rate for charitable use is set by statute, the mileage rate for business use is based on an annual study of the fixed and variable costs of operating an automobile. The rate for medical and moving purposes, meanwhile, is based on only the variable costs from the annual study.

Under the law, taxpayers cannot claim a miscellaneous itemized deduction for unreimbursed employee travel expenses, except for certain educator expenses. However, deductions for expenses that are deductible in determining adjusted gross income remain allowable, such as for certain members of a reserve component of the Armed Forces, certain state and local government officials, certain performing artists, and eligible educators. Alternatively, eligible educators may claim an itemized deduction for certain unreimbursed employee travel

expenses. In addition, only taxpayers who are members of the military on active duty or certain members of the intelligence community may claim a deduction for moving expenses incurred while relocating under orders to a permanent change of station.

Use of the standard mileage rates is optional. Taxpayers may instead choose to calculate the actual costs of using their vehicle.

Taxpayers using the standard mileage rate for a vehicle they own and use for business must choose to use the rate in the first year the automobile is available for business use. Then, in later years, they can choose to use the standard mileage rate or actual expenses.

For a leased vehicle, taxpayers using the standard mileage rate must employ that method for the entire lease period, including renewals.

Notice-2026-10  contains the optional 2026 standard mileage rates, as well as the maximum automobile cost used to calculate mileage reimbursement allowances under a fixed-and variable rate plan. The notice also provides the maximum fair market value of employer-provided automobiles first made available to employees for personal use in 2026 for which employers may calculate mileage allowances using a cents-per-mile valuation rule or the fleet-average-valuation rule.
