Human Resource Director Atina Adair reported on current vacancies across Grimes County. The Sheriff's Office has six patrol deputy positions open, two recently hired cadets, and two to three more candidates in background processing. Three jailer positions are vacant following two in-house promotions to sergeant positions effective October 1 and the movement of one jailer to patrol. Three dispatcher positions are also open with candidates processing. In the Road Department, one operator position and one administrative assistant position are open, with over 20 candidates filtered for the administrative role and interviews scheduled to begin the following week. One development tech position is also vacant. The EMC and Fire Marshal's office has one fire marshal deputy position open. All positions are being sourced through online postings, social media, Ameritech Staffing, and the Texas Workforce Commission.

IT Director Gregg Cannon reported 100 percent uptime across Internet and network connections with no cybersecurity incidents or major outages. A new phishing testing system is in place to assess employee compliance with security guidelines, and endpoint protection through Cybernet is now fully operational with improved network visibility. Patch management compliance stands at 85 percent across approximately 250 workstations and thirty-five servers. The new backup system is operational with no ransomware alerts, and infrastructure storage and service uptime exceeds 99.99 percent. Storage utilization is at 73 percent, and an approved replacement system will arrive within months at a revised cost savings of approximately \$40,000. The camera system operates at 99 percent capacity with 177 cameras; additional external cameras for Road and Bridge are planned. The help desk processed approximately 140 closed tickets of routine daily matters from 150 open tickets. Multi-factor authentication and fingerprint sign-in for patrol officers are planned for rollout within two months. The jail archiving project is progressing with scanning of approximately 150 boxes of sheriff's office records beginning that week.

Elections Administrator Rachel Walker reported an extraordinarily busy voter registration period. The office processed approximately 700 DPS applications, 63 mail-in and walk-in applications, and 35 Texas online applications in the current month, along with approximately 45 ballot-by-mail applications and 15 mailed applications. On September 3, the office received approximately 784 voter registration records from a statewide DPS system issue involving incomplete voter registration transactions dating back to October 2025. The backlog required careful individual review to prevent duplicate records and ensure accurate updates, prompting the hiring of three temporary employees beginning September 28 to assist after completion of secretary of state cyber training and hands-on instruction. The office worked extended hours, including weekends, to process the backlog while managing normal voter registration workload and the October 5 registration deadline. Additionally, the Elections Department successfully partnered with Anderson Shire Elementary School on September 24 to conduct a student council election using county voting equipment, with 138 fourth and fifth graders participating and two third graders serving as election clerks operating the controller and scanner. The event received overwhelmingly positive feedback from parents, teachers, staff, and school board members.

Looking ahead to the November election, Union Grove Baptist Church was approved as the new polling location for the Whitehall area, replacing the community center after two location inspections. Logic and accuracy testing was completed in September with 100 percent accuracy across all ballot styles, precincts, and equipment, including pull pad tests and check-in scenarios. The election worker schedule was finalized and all presiding and alternate judges notified of assignments. Ballot preparation for mail-out is underway, with approximately 400 ballots in process and a target completion date of Friday. Election day presiding and alternate judges have been notified of their assignments and polling locations.
